SKILLS

PERSONAL PROJECTS

Blog Application (10/2022 - 11/2022) [🔗](#)

- Developed front end using the ReactJs Chakra UI framework.
- Used NodeJs and Expressjs for the development of backend APIs.
- Used MongoDB Atlas for cloud database connectivity.
- The user may add famous places, and the user may view places added by other users. The user may modify and delete the location if they have logged into the application.
- The backend APIs are hosted on the Heroku platform, while the interface is hosted on Firebase.

News Application (04/2022 - 04/2022) [🔗](#)

- News application using ReactJs and material UI.
- Different categories of news like sports, health, science, entertainment, technology, etc.
- Used Material UI framework to develop the frontend

User Management Application (06/2022 - 06/2022) [🔗](#)

- Developed an admin dashboard where the admin can view a list of users and perform CRUD operations.
- Used NodeJs and Expressjs for the development of backend APIs.
- Used MySQL module to store the data in the database.
- Created frontend using bootstrap framework.
- Released open source on git for further development.

ACHIEVEMENTS

Java Skill Assessment Certification at HackerRank. [🔗](#)

Done internship as a Software Trainee at Highradius Corporation. [🔗](#)

Went through the MERN Stack certification course on Udemy. [🔗](#)
